Re: Consumer Product Safety Improvement Act of 2008

Nintendo's core products are not Toys or Children's Products as defined by the Consumer Product Safety Improvement Act of 2008 (CPSIA). As such, Nintendo is not required to provide certifications of compliance with its core products as outlined by the CPSIA.

Nintendo core products include Wii™, its accessories and software; and the Nintendo DS™ systems, their accessories and software. Although Nintendo's core products are not subject to the provisions of the CPSIA, they are nevertheless compliant with all applicable safety and environmental regulations worldwide.

Nintendo's third party publishers should seek their own legal counsel regarding the applicability of the CPSIA to their products.

Please contact myself, Melissa Bacon or Kris Gustafson if you have any questions.
